

Learn it in the app. Then put your hands on a real heat pump.

One hybrid class, three HVAC Excellence certifications. The course material is studied online in the Tauris Training app, and the class itself is three days on real equipment with an instructor beside you. Every student finishes with a Tauris Tech certificate of completion.

Three HVAC Excellence certifications

CERTIFICATION 1

Heat Pumps (HEER)

Components and controls, the heat pump cycle, service, theory, troubleshooting and reading schematics.

CERTIFICATION 2

Geothermal Heat Pumps (HEER)

Components and controls, loops, the heat pump cycle, service, theory, troubleshooting and reading schematics.

CERTIFICATION 3

Mini-Split Core Essentials (HEER)

Basic operation, concepts and installation of mini-split systems.

YOU WALK OUT ABLE TO

- Read the schematic and find the fault: follow the wiring diagram to the component that is failing, and know what the controls are asking the system to do.
- Run the cycle and service the unit: heat pumps, geothermal heat pumps and mini-splits, on real equipment, until a service call is something you have already done.

TUITION

\$3,000 PER CLASS

Includes 6 months of access to the online material.

Former Tauris Tech students: **\$2,400**, a 20% discount.

GROUP RATES

5 people	5% off
10 people	10% off
20 people	20% off

Group pricing comes with invoicing, purchase orders, and an activity report for every seat.

NEXT CLASS

Starts September 26

Three days: September 26, October 3 and October 10
Two sessions each day
9:30 AM to 12:30 PM and 1:30 PM to 4:30 PM

WHERE

136-06 Horace Harding Expressway
Flushing, NY 11367
